

Foster Grant™

Reading Glasses

TEST YOUR EYES IN AN INSTANT

1. To find the strength you need read the sight chart below without glasses from a distance of about 35cm (14").
2. The first line you have difficulty reading has the lens strength listed to the left, use this strength and colour code when selecting the style of glasses you desire.
3. Once you have selected the style of reading glasses you require in your strength try them out by reading the bottom line of the sight chart below, you should be able to read the text clearly.
